

December 23, 1975

Hon. Floyd J. Fithian, Representative  
Member of Congress  
1205 Longworth House Office Building  
Washington, D. C. 20515

Dear Representative Fithian:

Re: Closed Landfill, County Road 400 South  
SE  $\frac{1}{4}$  of Section 31, T31N., R6E.,  
Kosciusko County

On November 20, and December 16, 1975, a representative of this office inspected the above-referenced site. The purpose of the inspection was to ascertain the quality and completeness of final cover applied to the closed Kosciusko County Landfill.

The inspection revealed that an adequate two foot layer of final cover had been applied to the entire site. The site is somewhat devoid of vegetation due to low nutrient soil used for final cover. Poor vegetative growth would allow for some soil erosion. However, minimal uncovered refuse was observed.

It is believed that the site has been covered adequately and at the present time no remedial action is deemed necessary.

Thank you for your concern in this matter.

Very truly yours,

Roland P. Dove, Director  
Division of Sanitary Engineering
